

MANDATORY DRUG TESTING FOR STUDENTS TO BE ENGAGED IN ATHLETICS AND EXTRA CURRICULAR ACTIVITIES CONSENT FORM

In order for students to participate in athletics and extra-curricular activities, parents/guardians and students must sign this consent form each school year.

Board Policy 5131.61 states:

The Governing Board is committed to maximizing the health and safety of district students and recognizes the district's role in helping to protect students from the dangers associated with illegal drug use and drug abuse. To support the district's substance abuse prevention efforts, the Board desires to establish a drug testing program in the district's schools that will provide a deterrent from drug use and help refer drug users to appropriate counseling and rehabilitative services.

We fully understand that the students identified below could be randomly selected to be tested for the presence of illegal and non-prescription drugs and/or alcohol, and we give consent from the student to participate in the mandatory drug-testing program. **The student shall have the right to explain any medical conditions for which drugs have been prescribed which could alter the test result.**

We authorize the school's Vendor and/or designated testing laboratory to disclose the results of the testing to the Vendor, designated testing laboratory, Medical Review Officer, parents/guardian and Superintendent/designee.
